

2020 Registration An Instrument For Every Child

ABOUT AIFEC

An Instrument for Every Child is a unique musical program initiated by the Hamilton Music Collective, a group of local musicians, educators and community supporters who share a love of the arts, and music in particular.

AIFEC provides early-grade elementary school children from inner-city schools and community centres with a free, high quality music education and allows them to explore their creative potential.

HMC is thrilled to be in partnership with the Boys & Girls Clubs of Hamilton, a collaboration that will allow AIFEC to increase its programming reach and provide access to quality music education for members of the Hamilton Boys & Girls Club.

Instrumental Classes

Weekly instrumental classes instructed by proficient musicians with experience teaching music and specific instruments. Current instruments include: piano, trumpet, trombone, percussion, and ukulele. Instruments are provided on a free loan basis by the Hamilton Music Collective.

This 10 week program will allow participants to try a variety of instruments , all the while learning how to improvise and create music together.
